

## OUR CANADIAN WAREHOUSE IS MOVING

### Dear smartname

This month rings in the end of a chapter in the history of the Korle-Bu Neuroscience Foundation. Four years ago, we moved into the basement of Volken's Market and Furniture on King George Boulevard in Surrey. It has been a good home for us during a season of growth and expansion. When the building was sold last year, we received notice to be out by the end of April this year. It was time for us to find a new home for this new season.

Our first hope was to find a permanent home. While that is still in the works, we needed a place to land and settle in so we can continue operations. We will keep working at securing a permanent home, but we are so grateful for this opportunity to move to the City of Delta and establish the new KBNF Center in Ladner.

This warehouse is on the ground floor and will provide plenty of opportunity to enjoy the fresh farm air. The warehouse is currently getting prepared for our arrival and we hope to be up and running there very soon.

**Meanwhile, we are packing up the Surrey warehouse.** It is a big move, as you can imagine. John, Shirley and Idelette are working hard with volunteers to get everything sorted, packed up, organized and cleared.

We have created three Volunteer Saturdays this month and we would LOVE to have your help.

*We also NEED your help, please?*

We will be at the Surrey warehouse on April 13, 20 and 27. I will be coming down to help this weekend, as well as the last weekend in April.

**We are so grateful for each and every one of you—our KBNF family in Canada, the United States, in West Africa and around the world.** Together we are making a beautiful, life-giving impact. Together we are changing the story of access to neurosurgical excellence.

We look forward to seeing you at the Surrey warehouse this month as we end this chapter with joy and gratitude and we look forward to starting our new chapter together in Ladner.

Sincerely,
