Dear smartname

We are excited to tell you that the hospital beds have now been arriving and will keep coming. They are arriving 15, 20, 30 beds at a time and we have already prepared our first 50 beds to be loaded into a container *today*. Yes, the first shipment is already ready to be loaded. These are exciting times!

We have been processing and preparing beds at two different warehouses—one in Richmond and the other in Burnaby.

Now we need your help, please.

We have created multiple times and days to sign up to help out in November.
